ABOUT ME

I'm Janice Magdalene D, a Top Performer who graduated from Sri Krishna College of Technology in Coimbatore with a degree in Computer Science and Engineering. Through positions at Accenture and Azentio Software, I have professional experience working on enterprise projects and have contributed to solutions in the banking and healthcare domains. With training in Azure Data Analytics, Azure Databricks and Azure Synapse Analytics , I am presently expanding my knowledge in Data Engineering. I have a Certified ScrumMaster (CSM) certification and AWS certified cloud practitioner. Since I'm driven by continuous learning I am pursuing a online PGDM in AI & Business Analytics at Great Lakes Institute of Management .

SKILLS

Technical Skills: Java, React.js, CSS, SAP SD, AWS, Testing, Azure , Databricks, Synapse, ADLS, JIRA

Soft Skills: Leadership, Teamwork, Decision making, Communication, Multitasking

WORK EXPERIENCE

Azentio Software Private Limited, Bangalore

Intern

Nov 2024 - June 2025

- Automated test cases using Playwright, Cucumber, and Gherkin, improving test execution efficiency.
- Executed 400+ regression test cases to ensure application stability across releases.
- Performed functional, regression, and UI testing across multiple modules.
- Worked on OMNI (IMAL Core Banking Front-End) and supported modules such as CSM, FMS, ATM and other integrated components.
- Investigated defects by analyzing backend logs and tracing issues across modules to identify root causes.
- Logged, tracked, and resolved defects using JIRA, collaborating closely with development teams.
- Handled user stories, feature modifications, and client-reported issues, ensuring timely resolution.
- Used SQL queries for backend data validation and verification during testing.
- Worked with SOAP services and backend logs for troubleshooting and system validation.
- Actively participated in Agile ceremonies, including sprint planning, daily stand-ups, and sprint reviews.
- Collaborated with QA, Development and Product teams to improve defect tracking, reporting and release quality.

Accenture, Bangalore

Packaged App Development Associate Intern

May 2024- July 2024

- Acquired understanding of the SAP Sales and Distribution (SD) module's integration with other SAP modules while working on it.
- Learned how to manage orders, process deliveries and create billing documents as part of the Sales Order to Billing lifecycle.
- Explored SAP transaction codes (T-codes) for effective order and sales management task navigation and execution.
- Learned how to interact with enterprise applications using the SAP GUI, SAP UI5 and Fiori interfaces.
- Gained expertise in sales organizational structure, including divisions, distribution channels and sales organizations.
- Maintaining accurate product and client information requires an understanding of material master and customer master data management.
- Discovered how billing and sales processes automatically produce accounting documents.
- Researched business workflows which integrates SAP SD with other modules like finance and logistics.

YBI Foundation , Delhi (Online)

Data Science and Machine Learning Intern

June 2023- Aug 2023

- During my internship, I developed a data-driven movie recommendation system based on user behavior and rating patterns using machine learning algorithms like Random Forest and Linear Regression.

PROJECTS

VERBAL ABUSE ANALYSIS

- Developed a Python-based system for detecting hate speech in text and speech inputs using NLP techniques and a Bidirectional LSTM model, integrating speech recognition and real-time predictions through a Flask web interface, stored data in MongoDB and hosted in AWS.
- **GitHub Link:** <https://github.com/JaniceMagdalene/verbalabuseanalysis>

INFORMATION QUALITY ANALYSIS IN E-COMMERCE REVIEWS

- Developed a Python-based system to evaluate the trustworthiness of online product reviews using E-A-T principles, Natural Language Processing, and machine learning models for quality analysis.
- **GitHub Link:** <https://github.com/JaniceMagdalene/informationquality>

MOVIE RECOMMEDATION SYSTEM

- The project was developed in Python that deploys Collaborative and Content-based filtering to recommend movies based on a user's favorite input.
- **GitHub Link:** <https://github.com/JaniceMagdalene/movierecommendation>

ELDERLY CARE NETWORK APPLICATION

- Developed an Elderly Care Network application using React and Spring Boot, featuring CRUD operations and dual user roles. Integrated services like chatbots, email.js and responsive in all applications to enhance user interaction and support.
- **GitHub Link:** <https://github.com/JaniceMagdalene/BackendSpring>
- **LinkedIn:** https://www.linkedin.com/posts/janice-magdalene-d-970446228_my-latest-project-an-elderly-care-network-activity-7132424411403472896-uheI/

EDUCATION

GREAT LAKES INSTITUTE OF MANAGEMENT

Online PGDM in AI/BA

Tamil Nadu, India

July 2025 - Present

SRI KRISHNA COLLEGE OF TECHNOLOGY

B.E. in Computer Science and Engineering

Cumulative GPA: 8.99/10 (Academic Topper 2024-2025)

Tamil Nadu, India

Oct 2021 - Mar 2025

STANES ANGLO INDIAN HIGHER SECONDARY SCHOOL

Computer Science

Percentage : 95.18%

Tamil Nadu, India

June 2020 - May 2021

CERTIFICATIONS

- Certified Scrum Master
- AWS Cloud Practitioner Certification
- NPTEL - Cloud Computing (Topper-5%)
- NPTEL - Data Base Management System
- CSG - Core Java

HACKATHON, ACHIEVEMENTS AND PUBLICATIONS

- Published an article in the Int. Journal of Science and Research, 12 (4), 2023.
- HackaversuMM'22,hackathon participation
- Top Academic Performer 2024-2025
- 2nd Rank in SheCodes organized by IAMNeo
